Art Unit: 1644

1. Applicant's after-final amendment filed 7-8-02, Paper No. 37, and notice of Appeal filed 7-8-02, Paper No. 36, and new Formal Drawings filed 7-8-02, Paper No. 38, are acknowledged and have been entered.
2. Claims 54-64 are pending.
3. This application is in condition for allowance except for the following formal matters:

Drawings

New formal drawings are required in this application because of the reasons outlined in the Form PTO 948 attached to the instant office action. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance. **INFORMATION ON HOW TO EFFECT DRAWING CHANGES**

1. Correction of Informalities -- 37 CFR 1.85

New corrected drawings must be filed with the changes incorporated therein. Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin. If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability. The drawings should be filed as a separate paper with a transmittal letter addressed to the Official Draftsman.

2. Corrections other than Informalities Noted by Draftsman on form PTO-948.

All changes to the drawings, other than informalities noted by the Draftsman, **MUST** be made in the same manner as above except that, normally, a highlighted (preferably red ink) sketch of the changes to be incorporated into the new drawings **MUST** be approved by the examiner before the application will be allowed. No changes will be permitted to be made, other than correction of informalities, unless the examiner has approved the proposed changes.

Art Unit: 1644

3. Timing of Corrections

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.185(a). Failure to take corrective action within the set (or extended) period will result in **ABANDONMENT** of the application.

Specification

A substitute specification excluding the claims is required pursuant to 37 CFR 1.125(a) because the number of amendments in Amendment E filed 3-16-01 Paper No. 29 render it difficult to consider the application.

A substitute specification filed under 37 CFR 1.125(a) must only contain subject matter from the original specification and any previously entered amendment under 37 CFR 1.121. If the substitute specification contains additional subject matter not of record, the substitute specification must be filed under 37 CFR 1.125(b) and must be accompanied by: 1) a statement that the substitute specification contains no new matter; and 2) a marked-up copy showing the amendments to be made via the substitute specification relative to the specification at the time the substitute specification is filed.

Courtesy Copy of Amendment filed 5-7-01

Applicant is also requested to send in a courtesy copy of Amendment F filed 5-7-01 Paper No. 31, because said amendment is missing from the application. The office apologizes and appreciates applicant's cooperation with this request.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
